Pañcavokārabhūmi pavatti: • later **85** ***citta*** (exc. 4 arūpāvacara vipāka) starting from the **1st bhavaṅga** • **52** ***cetasika*** 85 citta = 4 mental aggregates (***nāmakkhandhā***), i.e. subsequent first life-continuum (***paṭhama bhavaṅga***), etc., excluding 4 immaterial resultants (***arūpa vipāka***), during life (***pavatti***) in 5-aggregate planes (***pañcavokāra bhūmi***).	• ***catusamuṭṭhāna rūpa*** Materiality due to 1, 2, 3 or 4 causes (i.e. **kamma, mind, temperature, nutriment**) which had arisen together with the preceding rebirth-consciousness (***paṭisandhi citta***), etc., and reached the **static phase**.

• ***ekaja-kāya*** – body produced by 1 cause in ***pañcavokāra-paṭisandhi***: ONLY ***kammaja-rūpa*** arise = **30** = ***kāya-dasaka, bhāva-dasaka, hadayavatthu-dasaka***.
• ***dvija-kāya*** – body produced by 2 causes: at the standing stage ***ṭhiti*** and perishing stage ***bhaṅga*** of **paṭisandhi citta**: ***kammaja-rūpa*** and ***utuja-rūpa*** exist.
• ***tija-kāya*** – body produced by 3 causes:
  o the ***1st bhavaṅga citta*** immediately after ***paṭisandhi citta*** can produce ***cittaja-rūpa*** at its arising stage ***uppāda*** (the strongest phase) -> these rūpa become powerful ONLY at the standing stage ***ṭhiti***.
  o ***tejodhātu*** arises with ***paṭisandhi citta*** and becomes powerful when reaching the standing stage ***ṭhiti*** -> produces ***utuja-rūpa***.
  o at ***ṭhiti-khaṇa*** and ***bhaṅga-khaṇa***, in every person there are ONLY: ***kammaja-rūpa, utuja-rūpa, āhāraja-rūpa***.
• ***catuja-kāya*** – body produced by 4 causes:
  o for womb-born beings ***gabbha-seyyaka-satta***, the mother's ***āhāraja-kalāpa*** spread to the foetus -> ***ojā*** produces ***āhāraja-rūpa*** in the foetus.
  o at 3 stages ***uppāda, ṭhiti, bhaṅga*** of every citta of the foetus, there arise ***āhāraja-rūpa***.
  o at ***uppāda-khaṇa*** of a citta of the foetus, ***kammaja-rūpa, utuja-rūpa, cittaja-rūpa*** also arise.
  o therefore, at the arising moment ***uppāda-khaṇa*** of every citta of the foetus, there are 4 types of ***rūpa***: ***kammaja, cittaja, utuja, āhāraja.*** (DPC p28-29)
